

LORENTZ IMMO LU

First Class Real Estate

Propriété de première classe

JUVEL - Frankreich, Côte d'Azur

The short history of this house ...

In 1991, the German industrialist K.S. acquired this very special property, in the hills above Cannes on the Côte d'Azur, in southern France. The sea view that extends over the Baie de Cannes, and out into the open Mediterranean is breathtakingly beautiful.

The Italian architect J. Ferraris developed the sensational design of the residence to suit the wishes of K.S. and his wife.

After 5 years of carefully planned construction, this property was completed with its marvelous gardens and swimming pool, beautiful classically decorated rooms and a magnificent grand entrance hall. Incredible details are a delight to behold and are sure to induce feelings of comfort and well-being.

Whether it's the outdoor seating areas, living rooms, library or kitchen, everything is unique and elegant, but very cozy with every comfort in mind.

The master bedroom with a separate dressing room and bathroom for both the lady and the gentleman, offers a heavenly view.

From a technical standpoint, the house, which was completed in 1995, was built to the highest standard, is as good as new and has been very well maintained.

Both the building materials and the workmanship of the property are in accordance with the highest German quality standards.

The residence is move-in ready, without any renovation work required.

The furnishings can be included in the purchase price on request (excluding the art collection and antiques).
